Scientific Achievements (Contribution to Scientific Conference and symposia)

Conference Title	Place And Date of the Conference	Extent of Contribution
The 9th international conference of the faculty of nursing - Tanta university,2021	faculty of nursing - Tanta university - Egypt 7-3-2021 8-3-2021	Participate with abstract (Effect of Implementing Body Mechanics Training Program on Internship students' Low Back Pain)

7th international scientific nursing conference paths of scientific research for COVID - 19 pandemic	Faculty of nursing – Mansoura university - Egypt 24-2-2021	Participate with poster (Effect of bar-code-assisted medication administration on medication administration errors)
the virtual seminar on “Cochrane Systematic Reviews, Generating Consensus, Research Designs, Teaching and Learning, and Mathematics As Model for Public Policy Information	Princess Nourah Bint Abdulrahman University and Dublin City University 10/11-2-2021	Attendance online
The first scientific conference for heads and supervisors of scientific departments	King Abdelaziz University 10-12/11/2020	Attendance online

Scientific Achievements(Membership and Committees participating in)

1-	Saudi Commission for Health Specialties
2-	The Egyptian Syndicate of Nursing
3-	The Scientific Research and Graduate Studies Committee of the College

Teaching Activities(Undergraduate)

Course	Course Number	Extent of Contribution
Emergency Nursing	1803431	Education all course
Nursing Care of Adult 2	1801317	Participate in Education
Nursing Care of Adult1	1801315	Participate in Education
Foundation of Professional Nursing (II)	1801214	Education all course
Foundation of Professional Nursing (I)	1801212	Education all course

Brief Description of the Undergraduate Courses taught

1-	Emergency Nursing: This course focuses on the theoretical knowledge and care about emergency nursing which is an essential component of health care delivery system. This course is designed to give students the chance to gain in depth understanding of nature of emergency nursing and role of nurse in meeting different needs of patients in emergency situations.
2-	Nursing Care of Adult1; This course gives the student the knowledge which used in applying the critical thinking approach and decision making in the healthcare medical and surgical settings. Also, it helps in developing skills needed in nursing care based on nursing process approach. The course helps the student in identifying the actual and potential problems related to patients with oncological, respiratory, cardiovascular, hematological, gastrointestinal, hepatic- biliary and pancreatic disorders
3-	Nursing Care of Adult2; This course gives the student the knowledge which used in applying the critical thinking approach and decision making in the health care medical and surgical settings. Also, it helps in developing skills needed in nursing care based on nursing process approach. The course helps the students in identifying the actual and potential problems

related to patients with Diabetes mellitus, urinary tract, immunology, integumentary, sensorineural, neurologic and musculoskeletal disorders

Teaching Activities (Scientific Studies)

Course	Course Number	Extent of Contribution

Teaching Activities (academic advising for Student)

Stage	Number of Students	Form	To me
1st year female students	94	1-9-2022	Till now
1st year students	118	1-9-2021	1-6-2022

Teaching Activities(Supervision of master and doctoral theses)

Scientific Certificate	The Side	The address	Date

Teaching Activities(Supervision of Ongoing Research)

Scientific Certificate	The Side	The address	Date

Administrative Tasks And Community Service

The Side	Position	Form	To me
Nursing college	Head of Emergency Nursing department	2021	Till now

Administrative Tasks and Community Service (Committee membership)

The Side	Position	Form	To me
