### 6. Mode of Instruction (mark all that apply)

| No | Mode of Instruction   | Contact Hours | Percentage |
|----|-----------------------|---------------|------------|
| 1  | Traditional classroom | 60            | 100%       |
| 2  | Blended               |               |            |
| 3  | E-learning            |               |            |
| 4  | Distance learning     |               |            |
| 5  | Other                 |               |            |

### 7. Contact Hours (based on academic semester)

| No | Activity          | Contact Hours |
|----|-------------------|---------------|
| 1  | Lecture           | 45            |
| 2  | Laboratory/Studio | 15            |
| 3  | Tutorial          |               |
| 4  | Others (specify)  |               |
|    | <b>Total</b>      | <b>60</b>     |

## B. Course Objectives and Learning Outcomes

### 1. Course Description

The objective of this course is to explain how computers are designed and how they work. Students are introduced to modern computer principles using a typical processor. They learn how efficient memory systems are designed to work closely with the processor, and how input/output (I/O) systems bring the processor and memory together with a wide range of devices. The course emphasizes system-level issues and understanding program performance. Topics include instructions sets, assembly language, internal data representation, computer arithmetic, processor data path and control, memory hierarchy, pipeline, and parallel processing.

### 2. Course Main Objective

Students will recognize the concepts of logic and digital design and analyze the internal configuration of computers and the various types and structures of processors.

### 3. Course Learning Outcomes

| CLOs |  | Aligned PLOs |
|------|--|--------------|
| 1    | <b>Knowledge and Understanding:</b>  |              |
| 1.1  | Recognize the concepts of numbering systems and digital logic design.      | K1           |
| 1.2  | Define internal components of the computer and basic machine instructions. | K1           |
| 2    | <b>Skills:</b>   |              |
| 2.1  | Design Processor's Datapath and control in interaction with memory         | S1, S2       |
| 2.2  | Implement with assembly language programs solving basic problems           | S3           |
| 3    | <b>Values:</b>   |              |
|      |  |              |

### C. Course Content

| No                      | List of Topics  | Contact Hours |
|-------------------------|---|---------------|
|                         | Overview of Computer Architecture and Hardware Technology   | 3             |
|                         | Introduction to Assembly Language   | 6             |
|                         | Number systems (Decimal, Binary, Octal, Hexadecimal, Signed Magnitude, 1's Complement, 2's Complement, IEEE754 Simple and Double Precision) | 6             |
|                         | Basic Arithmetic Operation for Computers, Capacity and Limits, Overflow   | 3             |
|                         | Overview of Digital Logic Design  | 6             |
|                         | Processor Datapath Design   | 6             |
|                         | Control unit design   | 6             |
|                         | Memory access, cache and pipeline   | 3             |
|                         | Advanced Assembly concepts  | 6             |
| <b>Laboratory Works</b> |   |               |
| 1                       | Introduction to assembly environment - hello world example  | 2             |
| 2                       | Overview of Instructions related to Basic arithmetic operations   | 2             |
| 3                       | Logical operations with assembly language   | 2             |
| 4                       | Memory access and addressing with assembly language   | 2             |
| 5                       | Branching instructions  | 2             |
| 6                       | Loops with assembly language  | 3             |
| 7                       | Interruptions and functions   | 2             |
| <b>Total</b>            |   | <b>60</b>     |

### D. Teaching and Assessment

#### 1. Alignment of Course Learning Outcomes with Teaching Strategies and Assessment Methods

| Code | Course Learning Outcomes  | Teaching Strategies  | Assessment Methods |
|------|---|--|--------------------|
| 1.0  | <b>Knowledge and Understanding</b>                                    |  |                    |
| 1.1  | Recognize the concepts of numbering systems and digital logic design. | Class / Group discussion,<br>Reciprocal teaching<br>guided discovery | Writing<br>Oral    |

| Code | Course Learning Outcomes   | Teaching Strategies  | Assessment Methods                    |
|------|--|--|---------------------------------------|
| 1.2  | Define internal components of the computer and basic machine instructions. | Class/Group discussion<br>Reciprocal teaching,<br>Guided discovery | Writing<br>Oral                       |
| 2.0  | <b>Skills</b>  |  |                                       |
| 2.1  | Design Processor's Datapath and control in interaction with memory         | Lab-based learning,<br>Micro-teaching,<br>Problem-Solving          | Writing<br>Performance<br>Observation |
| 2.2  | Implement with assembly language programs solving basic problems           | Lab-based learning,<br>Micro-teaching,<br>Problem-Solving          | Writing<br>Performance<br>Observation |
| 3.0  | <b>Values</b>  |  |                                       |

## 2. Assessment Tasks for Students

| # | Assessment task* | Week Due | Percentage of Total Assessment Score |
|---|------------------|----------|--------------------------------------|
| 1 | Quiz-1           | 2        | 2.5                                  |
| 2 | Quiz-2           | 8        | 2.5                                  |
| 3 | Assignment-1     | 4        | 5                                    |
| 4 | Assignment-2     | 10       | 5                                    |
| 5 | Oral questions   | 1-11     | 5                                    |
| 6 | Lab tasks        | 1-11     | 16                                   |
| 7 | Midterm exam     | 6        | 20                                   |
| 8 | Lab exam         | 12       | 4                                    |
| 9 | Final exam       | 13       | 40                                   |

\*Assessment task (i.e., written test, oral test, oral presentation, group project, essay, etc.)

## E. Student Academic Counseling and Support

**Arrangements for availability of faculty and teaching staff for individual student consultations and academic advice:**

Every instructor has an announced office hours schedule. All students are encouraged to visit the concerned teacher according to the schedule. Students can also use Email address or Blackboard System to seek help or book an appointment.

## F. Learning Resources and Facilities

### 1. Learning Resources

|                           |   |
|---------------------------|---|
| <b>Required Textbooks</b> | <ol style="list-style-type: none"> <li>Patterson, David A., and John L. Hennessy. (2021), "Computer Organization and Design MIPS Edition: The Hardware/Software Interface", Morgan Kaufmann. ISBN-13: 978-0128201091</li> <li>Kip R. Irvine (2020). Assembly Language for x86 processors., 8th edition, Pearson. ISBN 978-0135381656</li> </ol> |
|---------------------------|---|

|                                       |   |
|---------------------------------------|---|
| <b>Essential References Materials</b> | <ol style="list-style-type: none"> <li>1. Daniel Kusswurm (2018). Modern X86 Assembly Language Programming. Second Edition, Apress. ISBN 978-1-4842-4062-5</li> <li>2. AtaElahi (2018). Computer Systems: Digital Design, Fundamentals of Computer Architecture and Assembly Language. Springer. ISBN 978-3-319-66775-1</li> <li>3. Linda Null and Julia Lobur (2019). The essentials of computer organization and architecture. Fifth edition, Jones &amp; Bartlett Learning. ISBN-10: 1284123030.</li> <li>4. Patterson, David A., and John L. Hennessy. (2016), “Computer Organization and Design ARM Edition: The Hardware/Software Interface”, Morgan Kaufmann. ISBN 9780128017333.</li> </ol> |
| <b>Electronic Materials</b>           | <ol style="list-style-type: none"> <li>1. Blackboard System: <a href="https://lms.nbu.edu.sa/">https://lms.nbu.edu.sa/</a></li> <li>2. Saudi Digital Library (SDL): <a href="https://portal.sdl.edu.sa/english/">https://portal.sdl.edu.sa/english/</a></li> </ol>   |
| <b>Other Learning Materials</b>       | Nil   |

## 2. Facilities Required

| Item   | Resources   |
|--|---|
| <b>Accommodation</b><br>(Classrooms, laboratories, demonstration rooms/labs, etc.)   | <ul style="list-style-type: none"> <li>● Classroom</li> <li>● Laboratory</li> </ul>   |
| <b>Technology Resources</b><br>(AV, data show, Smart Board, software, etc.)  | <ul style="list-style-type: none"> <li>● Data Show (Projectors) in Classroom and Laboratory.</li> <li>● Desktop computers</li> <li>● OS: Windows</li> <li>● Software: Editor, assembler, linker, debugger, and emulator for X86 architecture and/or RISC (MIPS or ARM) architecture.</li> </ul> |
| <b>Other Resources</b><br>(Specify, e.g. if specific laboratory equipment is required, list requirements or attach a list) | <ul style="list-style-type: none"> <li>● Microprocessor training kit.</li> </ul>  |

## G. Course Quality Evaluation

| Evaluation Areas/Issues                           | Evaluators | Evaluation Methods |
|---|------------|--------------------|
| Effectiveness of teaching and assessment.         | Students   | Indirect           |
| Quality of learning resources                     | Students   | Indirect           |
| Extent of achievement of course learning outcomes | Faculty    | Direct             |

**Evaluation areas** (e.g., Effectiveness of teaching and assessment, Extent of achievement of course learning outcomes, Quality of learning resources, etc.)

**Evaluators** (Students, Faculty, Program Leaders, Peer Reviewer, Others (specify))

**Assessment Methods** (Direct, Indirect)

## H. Specification Approval Data

|                            |   |
|----------------------------|---|
| <b>Council / Committee</b> | Information Technology Department Council |
| <b>Reference No.</b>       | 10  |
| <b>Date</b>                | 27/02/2022                                |
